

Bra!nerKids™

Use the table and hints to help you solve the logic problem. Each square represents a possible answer.
 Draw a dot in the square for the answer where the horizontal and vertical squares meet.
 Draw an "X" in the square that is not the answer.

COSTUME PARTY

Four friends dressed up in costumes. Use the clues below to help you determine who dressed up as the skeleton and what age they are.

	EarneB	Ghost	Princess	Skeleton	6 years	7 years	8 years	9 years
Rylee								
Camdyn								
Luke								
Jude								
6 years								
7 years								
8 years								
9 years								

HINTS:

- + Rylee was dressed up as a princess
- + The boys' ages are both odd.
- + The youngest is a ghost.
- + Jude is EarneB and is 1 year older than Camdyn.
